To help service your car better, please print out the worksheet below, fill it in and either fax it to us at (281) 256-2333 or bring it in when you drop off your car.

## Starting Problems

### Will your car:

- Not crank or start?
- Crank, but won't start?
- Start, but only after several attempts?

## Driving Conditions

### If your car stalls, does it do so:

- Immediately after starting?
- While in park?
- When put in gear?
- While idling?
- During acceleration?
- While driving at a steady speed?
- While braking?
- When vehicle comes to a stop?

### Does your vehicle seem to idle:

- normally?
- too slowly?
- to slowly while A/C is on?
- roughly or unevenly?
- too fast?
- irregularly (alternately too fast or too slow)?

### While running, does your vehicle:

- run rough?
- seem to lack power?
- backfire?
- surge or jerk?
- misfire or cut out?
- hesitate or lose power on acceleration?

### Do you notice:

- a gas or sulfur smell?
- the Service Engine soon light on intermittently?
- the Service Engine Soon light on consistently?
- poor gas mileage/fuel economy?
- knocks, pings, or rattling in the engine?

### When shifting, does your vehicle:

- shift too early or too late?
- change gears apparently at random?
